

MONKEYPOX

VIRUS

SYMPTOMS

1. Rash with blisters (or a single ulcer in the mouth, anus or genitals)
2. Inflammation and pain in the rectum
3. Swollen lymph nodes
4. Fever
5. Headaches

MODE OF TRANSMISSION

Skin-to-skin contact including sexual, with someone who has Mpox or through contact with their contaminated belongings

IF YOU SUSPECT THAT YOU HAVE MPOX

- Isolate yourself, seek medical advice and get tested immediately
- Avoid any form of sexual or physical contact and ensure that lesions are covered up when in close proximity to others
- Keep your hands clean
- Ask close contacts and sexual partners if they have similar symptoms
